REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:

Art Unit: 2877

There was no prior art found by the examiner that suggested modification or combination with the cited art so as to satisfy the combination of all the limitations in claims 1, 9 and 16.

As to claims 1 and 16, the prior art of record, taken alone or in combination, fails to disclose or render the interrelationship between the "auxiliary measuring tool", **"the auxiliary reflectors"**, **"the reflectors"**, **"the light spots"**, **"the laser tracker"**, the **"opto-electronic sensor"** and a **"system computer"** as now claimed in claims 1 and 16.

As to claim 9, the prior art of record, taken alone or in combination, fails to disclose or render limitations **"installation means for mounting the auxiliary measuring tool on the device in at least two different orientations"** and **"positioning means for positioning the device relative to the measuring device such that the auxiliary measuring tool mounted on the device can be registered in each one of the orientations by the laser tracker and by the opto-electronic sensor of the measuring device"**, in combination with the rest of the limitations of claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2877

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Loferer et al (7,113,878) discloses a target for calibrating a non-contact sensor.
